No luck yet reaching Susan N. with Columbia Falls. I left another message with some of the details. I will follow up with her again soon.

I am in Butte today so will try to reach her between meetings.

Hi Robert

Any luck on securing a public meeting venue? Just realized its only three weeks out. We will need to get word out about this meeting.

We can put an agenda together fairly quickly. But we should make a call to proceed.

Thanks  
Mike

Hi Guys,

I got this email this morning and it looks like CFAC will be hosting a site tour. I'm okay with this and would plan on attending. It's open to the community and I think it would be in our best interest to be present. If Robert is available I would like him to join this as well. What are your thoughts?

Mike

**Subject:** Community Site Tour

Mike

The project is progressing well and it appears that we are on schedule with the work plans and resources to begin in April. Along those lines there were discussions at the last community meeting about the schedule and the feedback was positive and clear that folks wanted to see action. The drilling company has been engaged and will be on site drilling by Mid-May. We spoke of holding a site tour to show folks the drills on site, and provide an overall update.

May 25, 2016 was considered an a date that folks in general thought was good. In brief discussions with our folks we thought a 5:30 pm start time on site, with a modest meal and we would provide a bus tour to the areas where work was. We would then have a short close out at the admin office conference room.

We would have Mary helping with logistics and anything else that might be appropriate.

Comments welcome.

We have a call coming up later in the month and we can discuss further then.

John
